
RESEARCH
People and replaceable agents
Retrieve sources
Web, reports, interviews, model outputs
Interpret & propose
Typed answers + excerpts; or an unsuccessful search
Review & investigate
Gaps, conflicts, stale evidence
Correct claims; revise questions
EPIQ CORE
Deterministic operations
Entities + typed questions
Stable identity; versioned meaning
Validate & commit
Evidence required; values type-checked
Atomic writes; safe retries
Direct or staged
SQLite: durable research record
Claims, evidence, research outcomes
Immutable events + indexed state
Valid time + transaction time
PROJECTIONS
Views of recorded knowledge
Select a temporal view
When true? When known?
Resolve identity; retain lineage
Four explicit cell states
Answered / Contested
NotFound / Unasked
Tables, reports, exports
Inspect lineage; plan the next research or correction
Preserve the grounds
Capture and support are inspectable.
Make revision explicit
Corrections preserve the historical record.
Expose uncertainty
Missing evidence is not a negative answer.
